

Northwind Robotics — Company Overview

Northwind Robotics is a mid-sized robotics company organized into three departments: Engineering, Sales, and Operations.

Priya Sharma is the Chief Executive Officer of Northwind Robotics. She directly oversees Arjun Mehta, who leads the Engineering department as VP of Engineering, and Lisa Chen, who leads the Sales department as VP of Sales.

Arjun Mehta manages two engineers: Ravi Kumar, a Senior Software Engineer, and Meera Iyer, a Robotics Hardware Engineer. Ravi Kumar and Meera Iyer collaborate closely on the AtlasBot product line.

Lisa Chen manages David Wong, an Account Executive, and Fatima Noor, a Sales Operations Analyst. David Wong regularly coordinates with Ravi Kumar on product demos for enterprise clients.

Operations is led by Carlos Rivera, Director of Operations, who reports directly to Priya Sharma. Carlos Rivera manages Sana Aziz, the Logistics Coordinator. Sana Aziz works with Meera Iyer to schedule hardware shipments for pilot deployments.

Fatima Noor partners with Carlos Rivera on quarterly demand forecasting. Meera Iyer also mentors an intern, Tom Becker, who is part of the Engineering department.
